

INHERITING FROM THE WORLD'S LEADING TECHNOLOGY

1004G **POWER PACK IN-LINE PUMP**

40 kWm 1500 rev/min 44 kWm 1800 rev/min **GENSET POWER**

High Power Density

Power output and torque per liter are superior to normal level with optimized structure strengthening.

■ Low Fuel Consumption

The excellent combustion system can reduce fuel consumption, emission and noise, meanwhile increase engine power output.

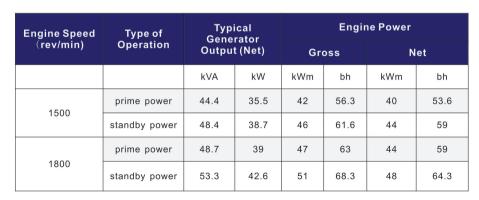

■ Easy Maintenance

All routine service items are situated on the right hand side of engine allowing easy maintenance and minimum machine downtime.

■ Durability & Reliability

Start normally at -10°C without preheated device, start smoothly at -25°C through flame glow plug

Maximum cooling efficiency is provided by a gear driven water pump and independent fan drive. Leak free operation is ensured by Viton crankshaft seals and sophisticated controlled swell joints, giving protection in the toughest conditions.

Rating Base: ISO 8528, GB/T2820

Lubricating oil: API CF

INHERITING FROM THE WORLD'S LEADING TECHNOLOGY

Standard Specification Air inlet

Mounted air filter

Fuel system

In-line fuel injection pump Spin-on full flow fuel filter and pre-filter

Lubrication system

Flat bottomed aluminum sump Spin-on full flow oil filter Oil cooler

Cooling system

Thermostat controlled cooling system with gear driven water pump Radiator 20"belt-driven pusher fan and guards

Electrical system

12 volt starter motor and alternator Oil pressure and water temperature switch & sensor 12 volt shut down solenoid

Flywheel and housing

High inertia flywheel, size: 10/11_{1/2} SAE3 flywheel housing

Mountings

Front engine mounting bracket

Optional Equipment

24 volt alternator 24 volt starter motor

All information in this document is substantially correct at the time of printing and may be altered subsepuently.

General Data

Cylinder number

Cylinder arrangement Vertical, in-line Bore×stroke 100 mm×127 mm

Displacement 3.99 liters

Induction Naturally aspirated

Cycle 4-stroke

Direct injection Combustion system

Compression ratio 16.5:1

Direction of Rotation Clockwise viewed from fan

8.5 liters Lub. System Capacity

Coolant capacity

(inc. radiator) 17.6 liters Length 1253mm Width 706 mm Height 946 mm net weight 540 kg

Final weight and dimensions will depend on final specification.
